IBRO Publications Committee

Chairman, A. D. SMITH; M. ITO, E. R. KANDEL, P. G. KOSTYUK, K. KRNJEVIĆ, R. LLINÁS, D. RICHTER.

Aims and Scope:

Neuroscience publishes papers describing the results of original research on any aspect of the scientific study of the nervous system. Since one of the chief aims of the journal is to promote communication between neuroscientists, the type of paper most suitable for publication is that in which new observations are clearly and succinctly reported and in which the purpose of the study is made meaningful to scientists of other disciplines. Any paper, however short, will be considered for publication provided that it reports significant, new and carefully confirmed findings with full experimental details. For *Instructions to Authors* see Vol. 24, No. 1, pp. i–iii.

Production Controller: K. B. DAY. *Editorial Assistant:* S. J. RUSSELL.

Publishing, Subscription and Advertising Offices: Headington Hill Hall, Oxford OX3 0BW (Oxford 64881).
Published monthly (four volumes per annum).
Annual institutional rate (1988) *DM* 2700.
Two-year institutional rate (1988/89) *DM* 5130.
Personal subscription rate for those whose library subscribes at the regular rate (1988) *DM* 231.
Prices are subject to change without notice.
Members of the International Brain Research Organization may order personal subscriptions at a concessional rate and details of these rates are available on request. Airmail Subscription extra. Subscription enquiries from customers in North America should be sent to: Pergamon Press Inc., Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A., and for the remainder of the world to: Pergamon Press plc, Headington Hill Hall, Oxford OX3 0BW, U.K.

Back issues of all previously published volumes are available direct from Pergamon Press. Back issues of Pergamon journals in microform can be obtained from: UMI, 300 North Zeeb Road, Ann Arbor, MI 48106, U.S.A.

LIST OF CONTENTS

VOLUME 24 NUMBER 1 JANUARY 1988

COMMENTARY

W. Van der Kloot — Acetylcholine quanta are released from vesicles by exocytosis (and why some think not) — 1

RESEARCH PAPERS

F. González-Aguilar, J. A. Rodríguez, R. H. Alzola and **M. C. Lupidio** — Synaptic vesicle relationships with the presynaptic membrane as shown by a new method of fast chemical fixation — 9

F. G. Gonon — Nonlinear relationship between impulse flow and dopamine released by rat midbrain dopaminergic neurons as studied by *in vivo* electrochemistry — 19

M. Eybalin, C. Parnaud, M. Geffard and **R. Pujol** — Immunoelectron microscopy identifies several types of GABA-containing efferent synapses in the guinea-pig organ of Corti — 29

J. R. Cunningham, M. J. Neal, S. Stone and **P. Witkovsky** — GABA release from *Xenopus* retina does not correlate with horizontal cell membrane potential — 39

P. Kontro and **S. S. Oja** — Release of taurine, GABA and dopamine from rat striatal slices: mutual interactions and developmental aspects — 49

J. Toldi, F. Joo, O. Feher and **J. R. Wolff** — Modified distribution patterns of responses in rat visual cortex induced by monocular enucleation — 59

D. W. Choi, M. Yokoyama and **J. Koh** — Zinc neurotoxicity in cortical cell culture — 67

C. N. Scholfield and **L. Steel** — Presynaptic K-channel blockade counteracts the depressant effect of adenosine in olfactory cortex — 81

H. Kaba, A. E. Rosser and **E. B. Keverne** — Hormonal enhancement of neurogenesis and its relationship to the duration of olfactory memory — 93

D. E. Hillman, S. Chen and **J. Ackman** — Perinatal methylazoxymethanol acetate uncouples coincidence of orientation of cerebellar folia and parallel fibers — 99

E. Palacios-Prü, L. Miranda-Contreras, R. V. Mendoza B. and **E. Zambrano** — Dendritic RNA and postsynaptic density formation in chick cerebellar synaptogenesis — 111

C. D. Balaban — Distribution of inferior olivary projections to the vestibular nuclei of albino rabbits — 119

V. V. Fanardjian and **V. S. Sarkisian** — Synaptic mechanisms of interaction between Deiters' nucleus and the nuclei of some cranial nerves — 135

J. M. Delgado-Garcia, F. Del Pozo, R. F. Spencer and **R. Baker** — Behavior of neurons in the abducens nucleus of the alert cat—III. Axotomized motoneurons — 143

D. C. German, M. Dubach, S. Askari, S. G. Speciale and **D. M. Bowden** — 1-Methyl-4-phenyl-1,2,3,6-tetrahydropyridine-induced parkinsonian syndrome in *Macaca fascicularis*: which midbrain dopaminergic neurons are lost? — 161

B. H. Shieh, M. Ballivet and **J. Schmidt** — Acetylcholine receptor synthesis rate and levels of receptor subunit messenger RNAs in chick muscle — 175

M. A. Casey and **M. L. Feldman**	Age-related loss of synaptic terminals in the rat medial nucleus of the trapezoid body	189
J. Leah, D. Menétrey and **J. de Pommery**	Neuropeptides in long ascending spinal tract cells in the rat: evidence for parallel processing of ascending information	195
F. Casamenti, P. L. Di Patre, L. Bartolini and **G. Pepeu**	Unilateral and bilateral nucleus basalis lesions: differences in neurochemical and behavioural recovery	209
P. G. Finlayson and **K. C. Marshall**	Synchronous bursting of locus coeruleus neurons in tissue culture	217
Y. Kawai, H. Takagi and **M. Tohyama**	Co-localization of neurotensin- and cholecystokinin-like immunoreactivities in catecholamine neurons in the rat dorsomedial medulla	227
H. Kobayashi, T. Iwasaki, F. Izumi and **S. Kurimoto**	Adrenergic receptors in bovine retinal microvessels: presence of α_2- and β- but not α_1-receptors	237
R. C. Maxwell and **G. Fink**	The patterns of [^{14}C]2-deoxyglucose uptake in female rat brain produced by electrical stimulation of hypothalamic and limbic brain areas	241
R. C. Maxwell and **G. Fink**	The connections between the suprachiasmatic, ventrolateral geniculate and raphe nuclei studied by uptake of [^{14}C]2-deoxyglucose	265
R. D. Dey, J. Hoffpauir and **S. I. Said**	Co-localization of vasoactive intestinal peptide- and substance P-containing nerves in cat bronchi	275
A. Surprenant and **J. Crist**	Electrophysiological characterization of functionally distinct 5-hydroxytryptamine receptors on guinea-pig submucous plexus	283
S. J. H. Brookes, W. R. Ewart and **D. L. Wingate**	Intracellular recordings from cells in the myenteric plexus of the rat duodenum	297
E. Ekblad, R. Ekman, R. Håkanson and **F. Sundler**	Return of nerve fibers containing gastrin-releasing peptide in rat small intestine after local removal of myenteric ganglia	309
T. Grunditz, R. Håkanson, F. Sundler and **R. Uddman**	Neuronal pathways to the rat thyroid revealed by retrograde tracing and immunocytochemistry	321
M. Schalling, K. Seroogy, T. Hökfelt, Siew Yeen Chai, H. Hallman, H. Persson, D. Larhammar, A. Ericsson, L. Terenius, J. Graffi, J. Massoulié and **M. Goldstein**	Neuropeptide tryosine in the rat adrenal gland—immunohistochemical and *in situ* hybridization studies	337
E. J. M. Grondal, A. Janetzko and **H. Zimmermann**	Monospecific antiserum against 5′-nucleotidase from *Torpedo* electric organ: immunocytochemical distribution of the enzyme and its association with Schwann cell membranes	351
BOOK REVIEW **A. J. King**	*The Auditory Brainstem: A Review of the Structure and Function of Auditory Brainstem Processing Mechanisms. Progress in Sensory Physiology, Vol. 7.*	365

VOLUME 24 NUMBER 2 FEBRUARY 1988

COMMENTARY

P. J. Magistretti and **J. H. Morrison** — Noradrenaline- and vasoactive intestinal peptide-containing neuronal systems in neocortex: functional convergence with contrasting morphology — 367

RESEARCH PAPERS

H. J. Groenewegen — Organization of the afferent connections of the mediodorsal thalamic nucleus in the rat, related to the mediodorsal–prefrontal topography — 379

R. L. M. Faull and **J. W. Villiger** — Multiple benzodiazepine receptors in the human basal ganglia: a detailed pharmacological and anatomical study — 433

M. Pisa — Motor functions of the striatum in the rat: critical role of the lateral region in tongue and forelimb reaching — 453

M. E. Olds — Correlation between the discharge rate of non-dopamine neurons in substantia nigra and ventral tegmental area and the motor activity induced by apomorphine — 465

M. E. Olds — Amphetamine-induced increase in motor activity is correlated with higher firing rates of non-dopamine neurons in substantia nigra and ventral tegmental area — 477

P. Dean, I. J. Mitchell and **P. Redgrave** — Contralateral head movements produced by microinjection of glutamate into superior colliculus of rats: evidence for mediation by multiple output pathways — 491

P. Dean, I. J. Mitchell and **P. Redgrave** — Responses resembling defensive behaviour produced by microinjection of glutamate into superior colliculus of rats — 501

M. Flanders — Head movement co-ordination in the African chameleon — 511

M. P. Witter, P. Room, H. J. Groenewegen and **A. H. M. Lohman** — Reciprocal connections of the insular and piriform claustrum with limbic cortex: an anatomical study in the cat — 519

M. Frotscher and **B. H. Gähwiler** — Synaptic organization of intracellularly stained CA3 pyramidal neurons in slice cultures of rat hippocampus — 541

G. Alonso, P. Siaud and **I. Assenmacher** — Immunocytochemical ultrastructural study of hypothalamic neurons containing corticotropin-releasing factor in normal and adrenalectomized rats — 553

L. M. Zheng, M. Caldani and **F. Jourdan** — Immunocytochemical identification of luteinizing hormone-releasing hormone-positive fibres and terminals in the olfactory system of the rat — 567

P. C. Brunjes — Precocity and plasticity: odor deprivation and brain development in the precocial mouse *Acomys cahirinus* — 579

D. Higgins, A. Waxman and **G. Banker** — The distribution of microtubule-associated protein 2 changes when dendritic growth is induced in rat sympathetic neurons *in vitro* — 583

F. Valtorta, A. Villa, R. Jahn, P. De Camilli, P. Greengard and **B. Ceccarelli** — Localization of synapsin I at the frog neuromuscular junction — 593

G. Skagerberg, B. Meister, T. Hökfelt, O. Lindvall, M. Goldstein, T. Joh and A. C. Cuello	Studies on dopamine-, tyrosine hydroxylase- and aromatic L-amino acid decarboxylase-containing cells in the rat diencephalon: comparison between formaldehyde-induced histofluorescence and immunofluorescence	605
E. Hösli and L. Hösli	Autoradiographic studies on the uptake of adenosine and on binding of adenosine analogues in neurons and astrocytes of cultured rat cerebellum and spinal cord	621
F. Conti, P. Barbaresi and M. Fabri	Cytochrome oxidase histochemistry reveals regional subdivisions in the rat periaqueductal gray matter	629
E. Puil and I. Spigelman	Electrophysiological responses of trigeminal root ganglion neurons *in vitro*	635
P. Legendre, B. Dupouy and J. D. Vincent	Excitatory effect of noradrenaline on pacemaker cells in spinal cord primary cultures	647
J. M. Lundberg, A. Hemsén, A. Rudehill, A. Härfstrand, O. Larsson, A. Sollevi, A. Saria, T. Hökfelt, K. Fuxe and B. B. Fredholm	Neuropeptide Y- and alpha-adrenergic receptors in pig spleen: localization, binding characteristics, cyclic AMP effects and functional responses in control and denervated animals	659
T. Lømo, S. Pockett and H. Sommerschild	Control of number and distribution of synapses during ectopic synapse formation in adult rat soleus muscles	673
M. I. Glavinović	Changes in the synaptic cleft potassium concentration produced by polarizing currents	687
J. Molgo and M. Pecot-Dechavassine	Effects of carbonyl cyanide *m*-chlorophenylhydrazone on quantal transmitter release and ultrastructure of frog motor nerve terminals	695
S. N. Currie and R. C. Carlsen	Cranial components of startle behavior in larval and adult lampreys	709
R. Palisses, L. Persegol, D. Viala and G. Viala	Reflex modulation of phrenic activity through hindlimb passive motion in decorticate and spinal rabbit preparation	719
A. K. Engel, W. Tetzlaff and G. W. Kreutzberg	Axonal transport of 16S acetylcholinesterase is increased in regenerating peripheral nerve in guinea-pig, but not in rat	729
SOFTWARE SURVEY SECTION		I

VOLUME 24 NUMBER 3 MARCH 1988

COMMENTARY

P. Holzer	Local effector functions of capsaicin-sensitive sensory nerve endings: involvement of tachykinins, calcitonin gene-related peptide and other neuropeptides	739

RESEARCH PAPERS

B. Lynn and J. Shakhanbeh	Substance P content of the skin, neurogenic inflammation and numbers of C-fibres following capsaicin application to a cutaneous nerve in the rabbit	769
R. Gardette, R. M. Alvarado-Mallart, F. Crepel and C. Sotelo	Electrophysiological demonstration of a synaptic integration of transplanted Purkinje cells into the cerebellum of the adult Purkinje cell degeneration mutant mouse	777

D. J. Clarke, S. B. Dunnett, O. Isacson, D. J. S. Sirinathsinghji and A. Björklund	Striatal grafts in rats with unilateral neostriatal lesions—I. Ultrastructural evidence of afferent synaptic inputs from the host nigrostriatal pathway	791
D. J. S. Sirinathsinghji, S. B. Dunnett, O. Isacson, D. J. Clarke, K. Kendrick and A. Björklund	Striatal grafts in rats with unilateral neostriatal lesions—II. *In vivo* monitoring of GABA release in globus pallidus and substantia nigra	803
S. B. Dunnett, O. Isacson, D. J. S. Sirinathsinghji, D. J. Clarke and A. Björklund	Striatal grafts in rats with unilateral neostriatal lesions—III. Recovery from dopamine-dependent motor asymmetry and deficits in skilled paw reaching	813
T. J. Blaxter and P. L. Carlen	Measurements of dendritic conductance changes to GABA in granule cells of the rat dentate gyrus	821
J.-W. Lin and D. S. Faber	An efferent inhibition of auditory afferents mediated by the goldfish Mauthner cell	829
J. P. Gueritaud	Electrical activity of rat ocular motoneurons recorded *in vitro*	837
J. P. Bolam, P. N. Izzo and A. M. Graybiel	Cellular substrate of the histochemically defined striosome/matrix system of the caudate nucleus: a combined Golgi and immunocytochemical study in cat and ferret	853
G. E. Duncan, W. E. Stumpf, O. Brüstle, B. S. Givens, G. R. Breese and C. Pilgrim	Topography of basal glucose utilization in the hippocampus determined with [1-^{14}C]glucose and [6-^{14}C]glucose	877
J. M. Solis, A. S. Herranz, O. Herreras, J. Lerma and R. Martin del Rio	Low chloride-dependent release of taurine by a furosemide-sensitive process in the *in vivo* rat hippocampus	885
V. R. Holets, T. Hökfelt, Å. Rökaeus, L. Terenius and M. Goldstein	Locus coeruleus neurons in the rat containing neuropeptide Y, tyrosine hydroxylase or galanin and their efferent projections to the spinal cord, cerebral cortex and hypothalamus	893
R. P. Vertes	Brainstem afferents to the basal forebrain in the rat	907
M. Castel and J. F. Morris	The neurophysin-containing innervation of the forebrain of the mouse	937
D. Banks and M. C. Harris	Activation of hypothalamic arcuate but not paraventricular neurons following carotid body chemoreceptor stimulation in the rat	967
D. M. Murakami and C. A. Fuller	The postnatal development of oxidative metabolism in the suprachiasmatic nucleus of the rat	977
M. H. Hastings, A. P. Walker, A. C. Roberts and J. Herbert	Intra-hypothalamic melatonin blocks photoperiodic responsiveness in the male Syrian hamster	987
